American Journal of Physiology: Renal, Fluid and Electrolyte Physiology

No. 1. JULY 1991

EDITORIAL REVIEW

Vasopressin receptor-mediated endocytosis: current view
W. Lutz, J. L. Salisbury, and R. Kumar F1

Impaired renal hemodynamic response to protein feeding in dogs with experimental Fanconi syndrome
L. L. Woods and E. W. Young F14

Colocalization of insulin-like growth factor-binding protein with insulin-like growth factor I
S. Kobayashi, D. R. Clemmons, and M. A. Venkatachalam F22

Renal sympathetic nerves modulate glomerular ANP receptors and filtration
M. Awazu, V. Kon, R. C. Harris, T. Imada, T. Inagami, and I. Ichikawa F29

Interaction of trichlormethiazide or amiloride with PTH in stimulating Ca^{2+} absorption in rabbit CNT
T. Shimizu, M. Nakamura, K. Yoshitomi, and M. Imai F36

Norepinephrine spillover faithfully reflects renal sympathetic nerve activity in conscious rabbits
T. Noshiro, T. Saigusa, D. Way, P. K. Dorward, and B. P. McGrath F44

Renal blood flow response to angiotensin II infusions in conscious pregnant rabbits
G. P. Brown and R. C. Venuto F51

Role of cytoskeleton in isotonic cell volume control of rabbit proximal tubules
M. A. Linshaw, T. J. Macalister, L. W. Welling, C. A. Bauman, G. Z. Hebert, G. P. Downey, E. W. Y. Koo, and A. I. Gotlieb F60

Effects of dopamine-receptor antagonists and renal denervation on amino acid-induced hyperfiltration
R. E. Méndez, R. López, G. López, M. S. Martí, and M. Martínez-Maldonado F70

Alteration in surface ion composition of cultured bone during metabolic, but not respiratory, acidosis
J. M. Chabala, R. Levi-Setti, and D. A. Bushinsky F76

Platelet-activating factor alters glomerular barrier size selectivity for macromolecules in rats
N. Perico, A. Remuzzi, J. Dadan, C. Battaglia, and G. Remuzzi F85

Postnatal maturation of rabbit renal collecting duct. II. Morphological observations
A. P. Evan, L. M. Satlin, V. H. Gattone II, B. Connors, and G. J. Schwartz F91

Selective inhibition of vasoconstrictor responses by platelet-activating factor in rat kidney
R. K. Handa, J. W. Strandhoy, and V. M. Buckalew, Jr. F108

Regulated expression of endothelin 1 in glomerular capillary endothelial cells
P. A. Marsden, D. M. Dorfman, T. Collins, B. M. Brenner, S. H. Orkin, and B. J. Ballermann F117

Clonidine and PGE_2 have different effects on Na^+ and water transport in rat and rabbit CCD
L. Chen, M. C. Reif, and J. A. Schafer F126

Adaptation of distal convoluted tubule of rats. II. Effects of chronic thiazide infusion
P. Morsing, H. Velázquez, F. S. Wright, and D. H. Ellison F137

ADH-induced water permeability and particle aggregates: alteration by a synthetic estrogen
G. Calamita, Y. Le Guevel, and J. Bourguet F144

Changes in NMR-visible kidney cell phosphate with age and diet: relationship to phosphate transport
M. Barac-Nieto, T. L. Dowd, R. K. Gupta, and A. Spitzer F153

Cholesterol esterase in preglomerular microvessels from normal and cholesterol-fed rabbits
V. S. Kamanna, S. I. Saied, L. Evans-Hexdall, and M. A. Kirschenbaum F163

Dynamics of intrarenal pressures and glomerular filtration rate after acetazolamide
P. P. Leyssac, F. M. Karlsen, and O. Skøtt F169

Responses to renin inhibition in conscious primate
U. Humke, N. Levens, J. Wood, and K. Hofbauer F179

A Ca-activated K channel from rabbit renal brush-border membrane vesicles in planar lipid bilayers
A. Zweifach, G. V. Desir, P. S. Aronson, and G. H. Giebisch F187

Myo-inositol and betaine transporters regulated by tonicity are basolateral in MDCK cells
A. Yamauchi, H. M. Kwon, S. Uchida, A. S. Preston, and J. S. Handler F197

SPECIAL COMMUNICATIONS

Photon-counting microcolorimeter with 40-nl cuvette
T. L. Pallone F203

No. 2. AUGUST 1991

Expression of renal Na^+-Ca^{2+} exchange activity in *Xenopus laevis* oocytes
S. Milovanovic, G. Frindt, S. S. Tate, and E. E. Windhager F207

Role of leukocytes in metabolic and functional derangements of experimental glomerulonephritis
J. B. Lefkowith, T. Nagamatsu, J. Pippin, and G. F. Schreiner F213

Endothelin synthesis by rabbit renal tubule cells
D. E. Kohan F221

Effects of maleic acid on renal phosphorus transport: role of dietary phosphorus
J. Guntupalli, V. Delaney, E. J. Weinman, D. Lyle, M. Allon, and E. Bourke F227

Angiotensin and thromboxane in genetically hypertensive rats: renal blood flow and receptor studies
C. Chatziantoniou and W. J. Arendshorst F238

Mechanism of enhanced eicosanoid production by isolated glomeruli from rats with bilateral ureteral obstruction
H. Yanagisawa, J. Morrissey, and S. Klahr F248

Pathogenesis of glomerular sclerosis in subtotally nephrectomized analbuminemic rats
C. K. Fujihara, D. M. Z. P. Limongi, R. Falzone, M. S. Graudenz, and R. Zatz F256

Indirect Na^+ dependency of urate and *p*-aminohippurate transport in pig basolateral membrane vesicles
D. Werner and F. Roch-Ramel F265

Vasoconstrictor effect of angiotensin and vasopressin in isolated rabbit afferent arterioles
H. Weihprecht, J. N. Lorenz, J. P. Briggs, and J. Schnermann F273

Fibroblasts of rabbit kidney in culture. I. Characterization and identification of cell-specific markers
H. P. Rodemann, G. A. Müller, A. Knecht, J. T. Norman, and L. G. Fine F283

Fibroblasts of rabbit kidney in culture. II. Paracrine stimulation of papillary fibroblasts by PDGF
A. Knecht, L. G. Fine, K. S. Kleinman, H. P. Rodemann, G. A. Müller, D. D. L. Woo, and J. T. Norman F292

Neurogenic regulation of rate of achieving sodium balance after increasing sodium intake
S. G. Greenberg, S. Tershner, and J. L. Osborn F300

Augmented bidirectional HCO_3 transport by rat distal tubules in chronic alkalosis
D. E. Wesson and G. M. Dolson F308

Fluoride mobilizes intracellular calcium and promotes Ca^{2+} influx in rat proximal tubules
J. H. Dominguez, J. G. N. Garcia, J. K. Rothrock, D. English, and C. Mann F318

Na^+-Ca^{2+} exchange and Ca^{2+} depletion in rat proximal tubules
J. H. Dominguez, C. Mann, J. K. Rothrock, and V. Bhati F328

Regulation of mesangial cell adhesion and shape by thrombin
W. F. Glass, II, E. Rampt, J. A. Garoni, J. W. Fenton, II, and J. I. Kreisberg F336

Role of cAMP-phosphodiesterase isozymes in pathogenesis of murine nephrogenic diabetes insipidus
S. Homma, S. M. Gapstur, A. Coffey, H. Valtin, and T. P. Dousa F345

Central effects of atrial natriuretic factor on renal salt excretion
P. Rohmeiss, G. Demmert, and T. Unger F354

RAPID COMMUNICATIONS

Effects of acute nitric oxide inhibition on rat glomerular microcirculation
R. Zatz and G. De Nucci F360

No. 3. SEPTEMBER 1991

Cellular distribution of H^+-ATPase following acute unilateral ureteral obstruction in rats
H. Purcell, B. Bastani, K. P. G. Harris, P. Hemken, S. Klahr, and S. Gluck F365

Functional characterization of α- and β-intercalated cell types in rabbit cortical collecting duct
H. Furuya, M. D. Breyer, and H. R. Jacobson F377

Basolateral tetraethylammonium transport in intact tubules: specificity and *trans*-stimulation
W. H. Dantzler, S. H. Wright, V. Chatsudthipong, and O. H. Brokl F386

Evidence for presence of functional β-adrenoceptor in rabbit S2 proximal straight tubules
K. Kudo, Y. Kondo, K. Abe, Y. Igarashi, K. Tada, and K. Yoshinaga F393

Chaos in blood flow control in genetic and renovascular hypertensive rats
K.-P. Yip, N.-H. Holstein-Rathlou, and D. J. Marsh F400

Analysis of pulsatile pressures and flows in glomerular filtration
M. C. Drumond and W. M. Deen F409

Renal brush-border membrane Na^+-sulfate cotransport: stimulation by thyroid hormone
H. S. Tenenhouse, J. Lee, and N. Harvey F420

Release of arachidonic acid by complement C5b-9 complex in glomerular epithelial cells
A. V. Cybulsky F427

Polyclonal antibodies in study of ADH-induced water channels in frog urinary bladder
G. Valenti, G. Calamita, and M. Svelto F437

Organic cation transport in human renal brush-border membrane vesicles
R. J. Ott, A. C. Hui, G. Yuan, and K. M. Giacomini F443

Effect of thiazides on colonic NaCl absorption: role of carbonic anhydrase
D. S. Goldfarb, A. J. Chan, D. Hernandez, and A. N. Charney F452

Glomerular hypertrophy accelerates hypertensive glomerular injury in rats
P. L. Miller, H. G. Rennke, and T. W. Meyer F459

Regulation of Na^+-Ca^{2+} exchange in cultured human mesangial cells
P. Menè, F. Pugliese, and G. A. Cinotti F466

Abnormal intestinal regulation of calbindin-D9K and calmodulin by dietary calcium in genetic hypertension
C. M. Roullet, J.-B. Roullet, P. Duchambon, M. Thomasset, B. Lacour, D. A. McCarron, and T. Drüeke F474

Pathways of acute pH regulation of ammoniagenesis in LLC-PK_1 cells: study with [^{15}N]glutamine
A. Sahai, I. Nissim, and R. L. Tannen F481

Thromboxane stimulates synthesis of extracellular matrix proteins in vitro
L. A. Bruggeman, E. A. Horigan, S. Horikoshi, P. E. Ray, and P. E. Klotman F488

Specificity of amino acid transport in renal papilla: microinfusion of Henle's loops and vasa recta
W. H. Dantzler and S. Silbernagl F495

Cellular mechanism of lithium-induced nephrogenic diabetes insipidus in rats
M. Yamaki, E. Kusano, T. Tetsuka, S. Takeda, S. Homma, N. Murayama, and Y. Asano F505

Angiotensin II receptor subtypes in renal cortex of rats and rhesus monkeys
R. E. Gibson, H. H. Thorpe, M. E. Cartwright, J. D. Frank, T. W. Schorn, P. B. Bunting, and P. K. S. Siegl F512

Transport of sodium chloride and water in rat ascending vasa recta
T. L. Pallone F519

Hormone responses of proximal Na^+-H^+ exchanger in spontaneously hypertensive rats
F. A. Gesek and A. C. Schoolwerth F526

Effects of PGE_2 and a thromboxane A_2 analogue on uptake of IgG complexes and LDL by mesangial cells
P. C. Singhal, S. Gupta, Z. Shen, and D. Schlondorff F537

Low-dose glucocorticoids maintain Na-H exchange in distal colon of adrenalectomized rats
C. P. Bastl, L. Bressler, G. Schulman, M. Mendez, and E. J. Cragoe, Jr. F545

Regulation of collecting duct water permeability independent of cAMP-mediated AVP response
S. P. Lankford, C.-L. Chou, Y. Terada, S. M. Wall, J. B. Wade, and M. A. Knepper F554

No. 4. OCTOBER 1991

Direct renal interstitial volume expansion causes exaggerated natriuresis in SHR
A. A. Khraibi F567

High glucose increases diacylglycerol mass and activates protein kinase C in mesangial cell cultures
S. H. Ayo, R. Radnik, J. A. Garoni, D. A. Troyer, and J. I. Kreisberg F571

Glomerular stereospecific synthesis and hemodynamic actions of 8,9-epoxyeicosatrienoic acid in rat kidney
T. Katoh, K. Takahashi, J. Capdevila, A. Karara, J. R. Falck, H. R. Jacobson, and K. F. Badr F578

Protein kinase C modulates cAMP content in proximal tubular cells: role of phosphodiesterase inhibition
F. Le Goas, C. Amiel, and G. Friedlander F587

Effect of protamine on ion conductance of ascending thin limb of Henle's loop from hamsters
S. Koyama, K. Yoshitomi, and M. Imai F593

Synthesis and action of nitric oxide in rat glomerular mesangial cells
P. J. Shultz, M. A. Tayeh, M. A. Marletta, and L. Raij F600

Regulation of Na^+-H^+ exchange by ATP depletion and calmodulin antagonism in renal epithelial cells
K. D. Burns, T. Homma, and R. C. Harris F607

Cytosolic acidification stimulates a calcium influx that activates Na^+-H^+ exchange in LLC-PK_1
K. D. Burns, T. Homma, M. D. Breyer, and R. C. Harris F617

IGF-I and its variant, des-(1—3)IGF-I, enhance growth in rats with reduced renal mass
A. A. Martin, F. M. Tomas, P. C. Owens, S. E. Knowles, F. J. Ballard, and L. C. Read F626

Relationship between sodium transport and intracellular ATP in isolated perfused rabbit proximal convoluted tubule
J. S. Beck, S. Breton, H. Mairbäurl, R. Laprade, and G. Giebisch F634

Induction of intramembranous particle clusters in mice with nephrogenic diabetes insipidus
A. K. Coffey, D. J. O'Sullivan, S. Homma, T. P. Dousa, and H. Valtin F640

Prostaglandin E_2 production in rat IMCD cells. I. Stimulation by dopamine
